

# CHIMBOTE HOMES NEED HELP

Do you know?

- 75% of homes in Father Jack's mission are made from estera (woven reed mats)
- An average remodeled home is 614 square feet or a small one is 346 square feet
- The cost for an estera house is \$1060.00. A brick house is \$5,600.00.
- The cost for drywall is \$2,300.00 which includes 1 kitchen, 1 living room, 1 bathroom, 1 room and perimeter. A concrete floor is \$1080.00.
- An estera roof is \$140.00 and a vinyl roof is \$1444.00.
- A home in a secure Quinta environment was remodeled for \$2300. Estera walls were replaced with sheetrock. The roof was replaced with a vinyl roof. The dirt floor was replaced with concrete.

Money for a home also creates a job. A parish builder supervisor's wage is \$15.00 daily or \$1.87 per hour. A parish builder's wage is \$7.41 per day or \$.93 per hour.

**Estera house**

**Remodeled living room**

**See additional pictures in the Archangels Hall on the Sister Parish bulletin board.**

**There is also information about our "Home in a Box" project on the bulletin board.**

**Consider making a donation in honor of someone as a Christmas gift.**

**We will send out a Christmas card letting the person know of the donation.**

**For information contact: Kathy 952-250-4551 or Mickey 612-819-7403**

Please accept my gift of \$ \_\_\_\_\_ Donation in honor of: \_\_\_\_\_ Supply address
